

LFO-Frequency-Switching Mod for Moog Prodigy

S: single-pole double-throw switch with middle rest (no contact) i.e. "ON-OFF-ON"

C-values depend on desired frequency range; e.g. for extreme range (0,003 Hz - 3 kHz):
C21: 27 nano-farad, C21a: 2,7 micro-farad (original C), C21b: 270 micro-farad
